

Client: [PeptidePlugs.com](https://PeptidePlugs.com)  
 Accession #: 2607140461  
 Search Code: Pept2607140461  
 Received: 07/14/2026  
 Reported: 07/16/2026  
 Lot: 160-670X-DL

## Sample Summary

|                           |                         |              |                                      |
|---------------------------|-------------------------|--------------|--------------------------------------|
| Product:                  | GHK-Cu 100mg            | Purity:      | Vial 1: 99.82%<br>Vial 2: 99.85%     |
| Identity:                 | Confirmed               | Net Content: | Vial 1: 95.24 mg<br>Vial 2: 99.12 mg |
| Appearance:               | Blue Lyophilized Powder |              |                                      |
| Endotoxin Threshold:      | Pass                    |              |                                      |
| Microbial Analysis (PCR): | Pass                    |              |                                      |

## Analytical Results

| Test             | Result |
|------------------|--------|
| Identity (LC-MS) | GHK-Cu |
| Purity (HPLC-UV) | 99.84% |

Net Content Average 97.18 mg

Method: Endotoxin testing performed using Limulus Amebocyte Lysate assay in accordance with USP <85> under validated laboratory conditions.

|                        |      |                                      |
|------------------------|------|--------------------------------------|
| Endotoxin Replicate 1: | Pass | Assay Sensitivity: $\leq 0.05$ EU/mL |
| Endotoxin Replicate 2: | Pass | Assay Sensitivity: $\leq 0.05$ EU/mL |

Method: Microbial detection performed using validated polymerase chain reaction (PCR)-based assay targeting common microbial contaminants.

|                          |                             |      |
|--------------------------|-----------------------------|------|
| Microbial Analysis (PCR) | No Detectable Microbial DNA | Pass |
|--------------------------|-----------------------------|------|

Method: HPLC with UV detection coupled with mass spectrometry (LC-MS).

The peptide purity analysis reported here was conducted using LCMS/MS under standard laboratory conditions. This analysis is intended for informational purposes only and is specific to the sample(s) provided. The peptides tested are intended for research use only and are not approved for human or veterinary use, diagnostic, therapeutic, or clinical applications. Results should be interpreted by qualified professionals within the scope of the intended research. The accuracy and reliability of the test may be influenced by sample integrity, handling, and other experimental variables.
